About the company

## Who we are?

We have been providing professional services and carrying out specialised projects in the areas of surface protection, insulation as well as interiors and furniture for over 30 years.

Our work culture is based on trust, partnership and reliability.

We are experts in difficult and demanding projects.

## How do we work?

We offer effective, high-quality technical and production solutions, as well as support and advice at every stage of the investment implementation.

The range of our projects is adjusted to the needs and requirements of the Customer.

We constantly improve the level of services we provide.

**FAST**

Partnership  
& Competence

## How do we work?

A competent team of dedicated Project Managers, who monitor every stage of the project, is available at Customer's disposal.

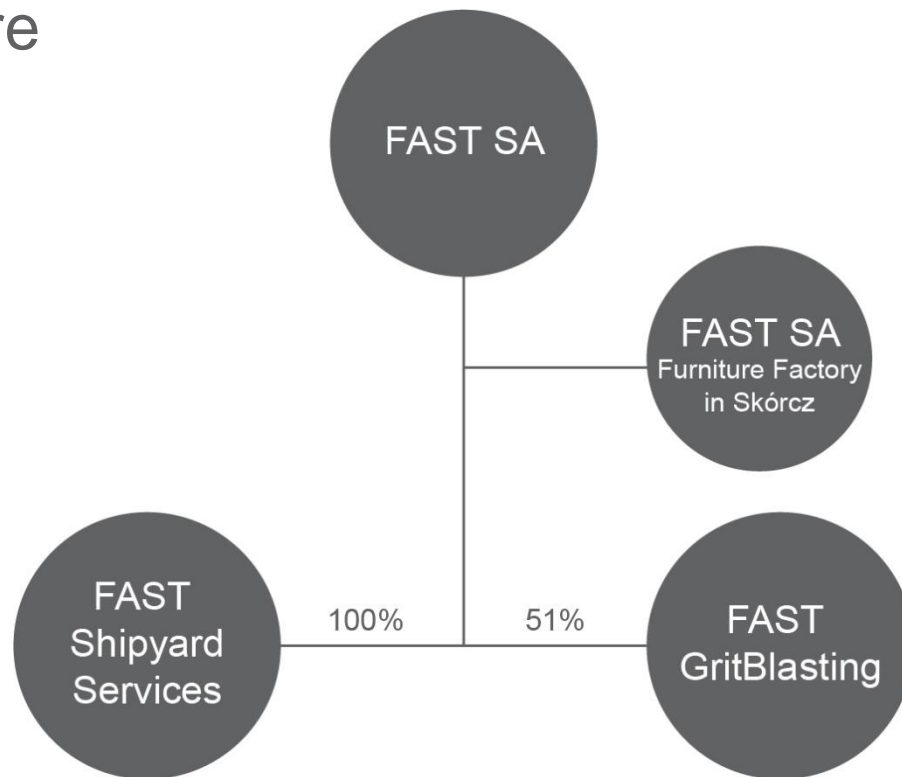

We guarantee safety and high quality of the project implementation.

About the company

# Human Resources

Human Resources

About the company

## Quality

Our flagship is high quality of the implemented projects.

We implemented and improved the Integrated Management System including ISO 9001, ISO 14001, PN-N-18001 and AQAP 2110.

# Safety

FAST is a brand of true values, aware of its responsibility for people and the environment.

We accurately adhere to the standards and requirements of the Occupational Safety and Health Management System OHSAS (PN-N-18001).

## WE CARE ABOUT ENVIRONMENT

We operate under the following standards  
PN-N-18001 i ISO 14001

# FAST

Partnership  
& Competence

# Environment

We consistently implement environmental policy.

We have introduced the Environmental Management System, ISO 14001.

We minimize the risks for the environment.

We develop ecological awareness among our employees.

**WE CARE ABOUT ENVIRONMENT**

We operate under the following standards  
PN-N-18001 | ISO 14001

# FAST

Partnership  
& Competence

## Brand with certificate

We operate in accordance to Classification Societies' norms.

We create comprehensive documentation for every project.

We possess certificates which entitle to conduct anticorrosion works on ballast tanks under the supervision of the PSPC and on vessels in accordance to IMO SOLAS resolution.

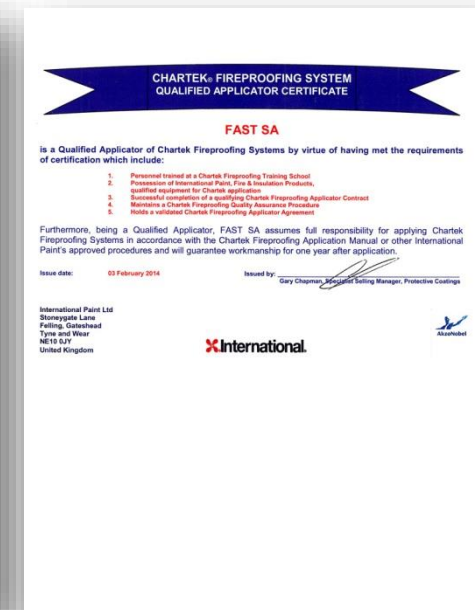

# Brand with certificate

We invest in the development of competencies and skills of our employees.

We possess NORSOK m-501 and Passive Fire Protection (PFP) certificates.

We meet stringent requirements concerning maintenance works carried out on offshore structures.

## Brand with certificate

We implemented IPMA methodology in projects management to enhance our organization's skills in this field.

We joined the circle of members of this international organization.

The methodology of projects management in our company has been significantly improved and adjusted to IPMA standards.

## Production facilities

### FURNITURE PLANT IN SKÓRCZ

Implementation of projects in the field of interiors and furniture.

The factory equipped with top quality professional machines, including the latest CNC processing centres, enables us to undertake most sophisticated and demanding „turn-key” projects.

Employment – 136 people

**FAST**

Partnership  
& Competence

# Production facilities

## FAST SHIPYARD SERVICES

Company which operationally implements projects in the area of surface protection, insulation and marine interiors and furniture.

Employment - 250 people.

# Production facilities

## FAST GRITBLASTING

Implementation of services in the field of surface protection: grit blasting, sand blasting, metallizing, hydrodynamic painting.

Services performed within FAST maintenance and painting lines, or on the object specified by the Client.

Employment - 110 people.

# Our advantages

## Our advantages

### DEDICATED PROJECT MANAGER

1. Guarantee of individual approach to the project.
2. Excellent qualifications.
3. Understanding customer's needs at every stage of the project (both organizational and technical).
4. Efficient project implementation.

## Our advantages

### MONITORING EVERY STAGE OF THE PROJECT

1. Responsibility for the whole process (monitoring, verifying earlier stages of the investment / project, feedback to the investor).
2. Scheduled implementation method.
3. Guarantee of safe implementation:
  - ability to change the conditions of order
  - compliance with the agreed financial terms.
4. High quality of realised projects.
5. On-time implementation.

 Offer

## Areas of activity

Areas of activity

Offer

**Surface protection**

- New vessels
- Ship repairs and conversions
- Offshore
- Large steel structures (land and sea)

Grit blasting, sand blasting, metallizing, hydrodynamic painting, passive fire protection applications

Services are performed on the object specified by the client or within FAST maintenance and painting lines

**Insulation**

- Ships: flat surfaces, pipes, flues

Fire, acoustic, and thermal insulation, metalworking, foaming

**Interiors & furniture**

- Hotels
- Ships
- Commercial spaces

Design, manufacture, purchasing and logistics, delivery, installation, after sale service

## Surface Protection

### ADVANCED SOLUTIONS FOR SURFACE PROTECTION

Maintenance and painting services in the area of surface protection are the main activities of FAST. Due to many years of experience, qualified staff, and full technical infrastructure, we can implement a great variety of projects.

## New vessels

### **SPECIALISATION IN SURFACE PROTECTION**

We preserve various units. From small, through large vessels to huge, floating objects. We are proud to have a very good reputation of a specialist in the maintenance of water tanks. Preservation works are carried out in accordance with the requirements of Classification Societies and under the IMO resolution (PSPC).

## Ship repairs and conversions

### QUALITY AND ACCURACY OF EXECUTION COMPATIBLE WITH THE PROJECT SPECIFICATION

Owing to developed technical infrastructure, adequate materials, and qualified staff, we provide complete anticorrosion and equipment repairs. All the works are always conducted in compliance with the specifications of the project and with highest care and quality.

## Offshore

### **MOST DEMANDING CONSTRUCTIONS**

Offshore structures belong to the most demanding and their preservation projects to the most complex. FAST preserves specialized units and components dedicated for petroleum and wind power industry.

## Large steel constructions

### INDIVIDUAL APPROACH TO IMPLEMENTATION

Surface protection of large steel structures requires experience, skills and properly matched paint systems. Depending on the needs of our customers, we use a variety of solutions and each project is examined individually.
