

The Granary La Suite Hotel

Dining room with adjoining kitchen on a glazed mezzanine. Oak elements fastened to frames made of raw steel covered with imitation rust.

One of the most interesting hotel projects in the portfolio of FAST SA consisted in the comprehensive supply of furniture to the The Granary - La Suite Hotel in Wrocław: from luxury apartments through a stylish reception area to atmospheric restaurants. Thanks to bold, up-to-date solutions highlighting the beauty of ancient architectural elements, the granary from the 16th century situated in the Old Town area, converted into a hotel, has become an exclusive, boutique hotel for demanding guests.

“For us the most serious challenge was the design assumption: construction of furniture on metal frames covered with rust. This is because we are excellent at removing rust, but it is much more difficult to achieve the opposite effect. That required thorough research and ‘blazing trails’. Therefore, we are even more happy about the opinions published by satisfied guests on Internet forums, and about the prizes for the Best Hotel and the Best Business Hotel in Wrocław

awarded to ‘our’ project,” said Jacek Szczutowski, Project Manager at FAST SA.

According to Tripadvisor (www.tripadvisor.com) The Granary is also the Travelers Choice 2012 Winner.

The Trivago portal also distinguished The Granary - La Suite Hotel as the Best Hotel in Wrocław.
