Bed with a rectangular headrest combined with oval-shaped bedside tables.

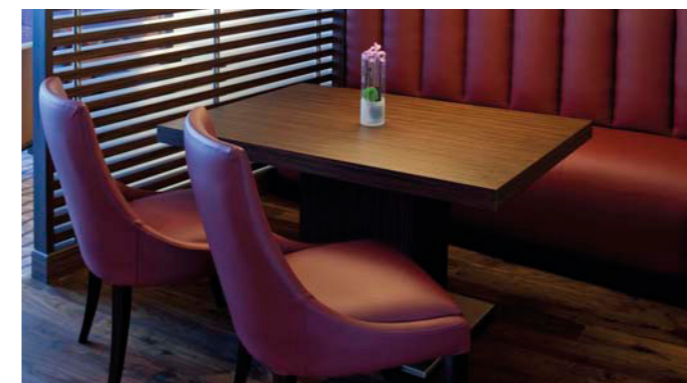

The world-renowned Sheraton Warsaw Hotel chose to cooperate with FAST SA. "A strong argument was the recommendation given to the company by the Sheraton in Sopot, as well as positive opinions about the projects we had implemented in other luxurious hotels. Our projects speak for themselves, and their top quality is the best trademark of FAST SA," said Jacek Szczutowski, Project Manager at FAST SA.

The project implemented for the Sheraton Warsaw Hotel included the redecoration and complete replacement of equipment in apartments in an operating hotel: furniture for adjoining kitchens, living rooms, bedrooms and bathrooms. FAST SA also supplied and installed internal glass screens separating bathrooms from bedrooms. What distinguishes the design is elegant simplicity of form

supplemented with curved surfaces. Supreme quality standards, typical of the Sheraton chain, required the use of top-shelf materials and the implementation of cutting-edge design solutions.
