

To Whom It May Concern:

Hereby we confirm that Fast SA was contracted for NB 127 Stril Server,

We can highly recommend the good cooperation with Fast SA, since all contracted works have been organized and carried out to our full satisfaction. We wish to acknowledge high standard of performance and professionalism exhibited by subcontractor FAST SA on the NB 127 Stril Server,

Project Management from Fast SA performed during this project has been fully professional and high skilled within their range of activity, what has been many times proved by the necessity of making quick, however always reasonable and accurate decisions.

NB 127 Stril Server, project have been technically complex on all aspect. She was designed as a research ships, stations for the remote-controlled underwater vehicles, underwater activities and as a diving stations. They are also adapted to handle marine wind stations constructions.

Scope of work included:

- Project management service carried out by dedicated and professionally trained, dedicated Project Manager,
- Support on every stage of the project at area of anticorrosion protection
- Cleaning and painting

All activities mentioned above, FAST SA performed with supreme quality and with reference to all highest standards of work and work management. FAST SA showed its ability to collaborate as team player and was always flexible when required.

Understanding that it needs highly qualified personnel to maintain good relationships, FAST SA provided exceptional staff that had stayed involved and accessible throughout the project.

FAST SA is a company that Vistal Offshore highly recommends basing on experience from the NB 127 Stril Server. We are fully convinced that FAST SA

is capable and prepared to withstand technical demands in order to meet international standards.

Therefore FAST SA is a trustful partner and may be invited to participate in demanding projects where up-to-date knowhow and techniques are required.

Sincerely,

VISTAL OFFSHORE Sp. z o.o.
