Public spaces

At the end of 2016 we finished works on twin passenger-vehicle ferries B 616/1 Töll i B 616/2 Piret, ordered by Estonian investor TS Laevad OU. Technical characteristic of both vessels – 114.0 m of overall length, car desk length - 107,0 m, capacity (passenger cars) - 150 it., passenger places - 700, seating positions – over

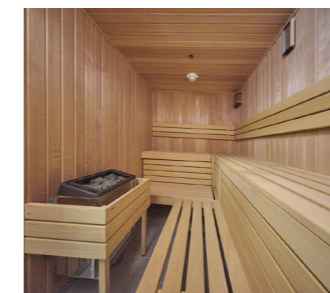

500, operational speed – 10 knots and maximum speed – 15 knots. FAST scope of work included insulation and comprehensive interiors outfitting of both vessels and surface protection of Piret ferry hull. The scope of “turn key” outfitting works contained crew cabins, mess, public spaces and galley.
