Ibis Styles Grudziądz

FAST scope of work:
Rooms and public spaces outfitting

FAST Project Manager:
Marcin Jachowski,
marcin.jachowski@fast.pl

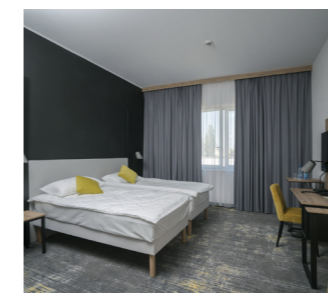

Lounge

With pleasure we would like to inform that FAST has finished the project of comprehensive outfitting of Ibis Styles Hotel in Grudziądz. This is successive object of the brand furnished by our company. Each implementation of the kind is a challenge for us – Ibis Styles Hotels are characterized by unique interiors, designed individually for each facility. Design is basic brand value offering guests exceptional, modern and colourful interiors based

on one main theme. In case of Grudziądz, which has medieval roots, the inspiration was knightly climates from various epochs – starting from Slavic warriors to armoured Teutonic Knights. Medieval elements infiltrate the modern design, connecting the historic legacy with contemporary times. The FAST scope of work included rooms and all public spaces outfitting.
